51 DAYS PAST

315 TO COME

An Upbuilding Regimen.

The necessary material aid to initiate blood and tissue reconstruction should be afforded to the patient suffering from the Anemia of Malnutrition. While this condition cannot be entirely overcome by hematinics alone, a non-irritant, promptly absorbable, non-constipating ferruginous tonic, such as **Pepto-Mangan (Gude)**, assists decidedly in any general reconstructive treatment adopted by the physician.

Weather

Temp.

A bright -
day! Aunt Belle & Lewis
came here on their back
from Auntie Arnold's funeral.
Eugene & Alita was over
for dinner & then Eugene
& his father went to the
funeral! Dr. M^cLeay was
here for tea. Hazel Rogers
Arthur was out!
