

June 3rd, started
spraying at noon
got 3 tanks on.
cold & windy.

June 4th only got 3
tanks all day.

Broke timing gear

June 5th 6th & 7th
still spraying it
took 20 tanks to
go over all. put about
6 lbs Lead + $3\frac{1}{2}$ to
 $3\frac{3}{4}$ gal Lime Sulphur.
Every thing looks light
no signs to amount
to any thing don't look
like 10% Early plum
looks like none
Reine Claude Bradshaw
& monarch than
any thing and looks

like about half a
crop of cherries.
John & Owen have been
planting peppers by
hand after buying
a machine. not enough
horses to work it.
Tomatoes planted out
looks bad. weather
has been very cold
& windy. Paper states
it froze vice Thursday
am at Mt Hope &
also froze plants down
near Toronto.

June 8th. still cold, with
strong north winds.
planting peppers &
tomatoes. temperature
down to 40 at Bed-
time tonight.
