114 DAYS PAST

251 TO COME

Anesthetizing Children.

Never begin the anesthetic until the surgeon is ready to operate. This is a thing that I wish to impress not only on anesthetists, but on the general operator. I have seen many patients who have been kept under anesthesia anywhere from five to thirty minutes before the operator was ready to begin.—Kilmer; Arch. Pediat.

Weather cloudy nearly all day looked like rain & cold. Pa went over to Eugene this morning & Brand's helped me we finished plowing the little garden Maude & Della both road their wheels to chock Della punctured hers down by Mr C Thompsons & had to leave there. Old Geary had a heifer calf this forenoon & turned Old Fran in the road. she behaved fine. The horses worked all day. **Temp.** Old Geary had a calf
