## Laryngeal Cough.

The cough excited by laryngeal disease is more appropriately dealt with by local treatment—inhalation of vapors of benzoin, menthol, eucalyptol, or thymol, singly or in combination, or sprays of liquid paraffin containing menthol, camphor, and oil of cinnamon.—*Med. Sentinel.*

Temp.

(Colder, not thawing)  
Girls drove the buggy. John went  
for Costella in Taylor's this  
morning. Joe & I washed & polished  
ironing to night & washed them  
are dry. John went & helped  
Mark this afternoon.  
Got two eggs to night.  
Miss Storey was not well  
enough to teach. snowed  
a little for a few minutes  
this evening
