

Friday September 22nd

I have disked all day but am not over the field yet. This morning Dad. blocked up the line fence between Ben Sway and us so that the sheep couldn't get through, they have been getting very wayward lately and running all over Ben's place. He would have come back but Whit came after a steer and they had an awful time getting him I guess. They took mine. By this afternoon they had the engine fixed so Dad. had to go down and finish helping Mr. Fleming the machine moved over to Jack Martin's but they didn't touch any there. It lay on to rain about six and we had quite a heavy shower for awhile and then a quieter one for an hour or two. I went down town after tea and meat up to the Bagleys for a little while. Louise came up to night to stay at Auntie's for awhile. I went down there and as it was raining when I was ready to come home so I stayed and slept on the sofa all night. Alan Law was telling Dad. Val's version of his fight with Misner. According to him it was Misner that was doing the most talking and exaggerating. Val till he slapped him, then they clinched and Misner downed him but it wasn't long till Val. was on top and he choked Misner till he 'holled' enough and said he was sorry and he would not have said so much if he hadn't been drinking. So which is the correct version is hard to say, but I believe I would sooner take Val's word than Misner's.

Saturday September 23rd

Dad. went over to Martin's this morning but found they were going to thresh so I saw then that the stacks would be too wet so Dad. came home and shook out more of the grass roots he got there nearly all done. I disked all day and finished the field to night. Dad. brought the other team back this afternoon and harrowed the fresh plowed part and started to rot it. I got a check from Selmer Woods today for my 12 cords for \$12.24 I was well satisfied as I thought the price would have dropped but I got 18 cts a lb. Cold and cloudy.

Sunday September 24th

I drove Cuck down to church this morning, but Dad. Frank & the baby didn't go down. Frank was over with Ben Sway all morning. Dick was in church and he came home with us and was here all the afternoon but had to go down before dark to feed Mr. Habbe's chickens as he is away on his holiday now. Dess is in Sincoe so Dick is having a respite from his ardent attention to her. He and I prowled around the farm a little but it was cold and looked rainy so we spent most of the afternoon in the house. Cuck had to play today as Cleo's away so I drove her down again to night. I went up with May
