

The Life of the Flesh Is the Blood

The vivifying, nutrifying, force-engendering power in life resides in the crimson stream which is constantly pumped through the vascular channels to feed the hungry tissues.

Pepto-Mangan ("Gude")

is a true "blood builder." It supplies the deficient hemoglobin in cases of Anemia, Chlorosis, Rickets, Amenorrhœa, Dysmenorrhœa, etc., by infusing organic iron and manganese (oxygen-carrying and hemoglobin-making elements) into the depreciated circulating fluid.

In eleven ounce bottles only; never sold in bulk.
