

**Saturday, December 5**

339 DAYS PAST

26 TO COME

**The Period of Transition**

from girlhood to womanhood, the "molimen menstruale," depends, for its successful initiation, upon the integrity of the blood. If the circulating fluid is chloranemic in character, **Pepto-Mangan (Gude)** comes promptly to Nature's aid in the establishment of normal function and also improves the general health and strength.

**Weather**

**Temp.**

Cold & windy  
John & I went to Mrs Gaur's  
& bought a walnut bureau  
in the afternoon. Maud  
& Cerie Bell came &  
spent the afternoon & stayed  
all night.
