

Monday June 26th

There was another heavy shower this morning. When we got up Enah started to get the books ready for Johnny Walker to get this afternoon.

Quint and I fooled around till Daddy and Dick came down. Quint was going to make a lead anchor in a flower plot.

Lila was sick this morning. Quint and Dick did not have to go to school this morning. They are going to start their exams this afternoon. Quint is going to give school if he passes but will have to go another term if he fails.

When Daddy came down we went over and saw our rack at the Wide spread. It was only about half done. I had Daddy went up to see if he could get Dave Waddle to come and string the barn. Then I put on Hubby's old oil skin coat which stuck to me so tight I could hardly get it on and went over to Young's to get a load of shingles. We got

six thousand and started for home. Daddy and I had dinner all alone, after dinner I slept till about four o'clock, and then we looked up Harry and Belle to get some more shingle and nails. We got as far as Nye's and Daddy thought he would go and see Stanley the colt that he would not give 10 cts for yesterday but which under his administration is now as good as new. I was waiting on the road for him when Johnny Walker came with the stuff. We then had to go all the way back home to help him unload. We piled the stuff in the wood shed and then there was not time to go downtown. After tea today and I carried in most of the books and set them in the hall. Dick came home supperless about 9 o'clock and said Harry had got the boat house moved at last. He got Dave Waddle and some fishermen and Bill. Bill never showed up at all today. It looked to much like rain.
