330 DAYS PAST

35 TO COME

Acute Follicular Tonsillitis.

For young children who have not learned to gargle, Chapin and Pisek (*Diseases of Children*) advise as a very effective local application, to be used on a swab every two or three hours, the following:

R Tincture of iodine miv;
Argyrol gtt. iij;
Water, q. s. ad 5ss.

M.

Weather

Warm

Temp.

Pa & I drove Polly to
St Thomas. Then on over
to London got a new
bedroom suit. was gone
all day home about
half past six. Andrew
came & stayed with
the girls.
