313 DAYS PAST

FRIDAY

53 TO COME

The Solid Elements of the Blood.

When acute anemia follows direct hemorrhagic loss the solid elements of the blood must be re-created. **Pepto-Mangan (Gude)** is peculiarly adapted for such purpose, as it supplies, in effective and eligible form, the necessary iron and manganese for the genesis and re-genesis of red cells and hemoglobin.

Weather

Temp.

Raining & night
sprinkled off & on all day
& washed. I went & swept
the rest of Mrs Bing's ^{house} out
brought me things home.
John went to Ayler & had
Maria's foot cut out, where the
rail was in it, got her
shod & baid for it. John
went to a sale this afternoon
to John Penner's over on the
Buck place.
