

Tuesday September 16th

Dad. and I plowed all day and got enough done that Frank was able to bring Queen & Belle out and work on it this afternoon. he rolled and disced it. We quit at five and all went down town to supper. Frank, Enak and I went to the picture show to see "Mrs. Wiggs of the Cabbage Patch" which I didn't think much of and Dad & Sid stayed at Aunt's to say goodbye to Walter & Elsie. I went down on my way home to see them but they had just gone to bed. They are going in the morning.

Wednesday September 17th

We plowed all day again. Frank did odd jobs and waited all day for Belle to come up from the back field as she always has done as soon as the sun gets hot but she didn't come up for water till night so he couldn't work her. but he took Queen & Joe out late in the afternoon and harrowed a little. I went down town to night to telephone Archie McEwen and ask him what prospects there were for selling our sheep but he was in Toronto. I couldn't get him. I went over to Dyer's and got my hair cut and then came home and polished my horn a little. Looking but sun hot and flies very bad. Cold night.

Thursday September 18th

Dad. and I plowed this morning. Frank came out with Belle & Queen and hooked to the roller, they weren't going just to suit Dad so he took them and Frank plowed just at noon. Dad. had a bad accident. The double tree on the roller came off and the tongue dropped throwing him forward and scraping his shin badly on the back of the roller tongue. He couldn't walk at first for the pain but for a wonder he didn't break his leg. He has to keep his leg up all the time as it pains very badly when he puts it down. Frank and I kept on plowing this afternoon and to night we all went down to the horticultural show. Enak & Sid drove down and when they came home Frank went down. I went with the band and we played.

Friday September 19th

Frank and I plowed all morning and this afternoon till we finished this side of the potato patch. just as we finished a storm which had been threatening all the afternoon broke and it poured rain soaking us. We came up and had a bath before changing putting on dry clothes. It rained all the rest of the day &
