272 DAYS PAST

94 TO COME

Gastric Ulcer.

Following combinations practically assure a diagnosis of ulcer: (1) Tender point with occult blood. (2) Hypersecretion with tender point. (3) Hypersecretion with occult blood. (4) Tender point with repeated positive thread tests. (5) Tender point with hematemesis. (6) Hematemesis with hypersecretion. (7) Hypersecretion with positive thread tests.—*Verbruycke*.

Weather

Temp.

Rained last night  
and rained this morning  
and again to night. I  
took the girls & went for  
them. Maudie thought she  
would stay. Then she didn't  
& I had to go back again  
for her. John started digging  
the potatoes. Shed, Mrs. George  
& Eva & Corwin & Cecil  
all called to day.  
Maudie 14
