

He finished the field about four o'clock. I spent the day cleaning up around the yard, and was over at the Laruphins for awhile helping Dave with his chores. This afternoon I got Mary to take a walk out to where Tom is ploughing and along the creek. It is very pretty up there. In night Mary and I went down to Auntie to spend the evening. The ones from the farm were down and we spent the time answering or attempting to answer questions from Vernon's catechism. Tom & his wife came over to stay with the kids who were in bed when we left and luckily went to sleep with out knowing that Mary was away. Beautiful day in spite of wind.

Tuesday April 5th

Tom and I went down to Jack Mason's this morning and got a couple of young sows, as we heard that Dick Waddle had sold one of the ones we had intended getting from him. These we got from Jack are very nice even and good bacon type and ready to breed. We paid him 25⁰⁰ apiece for them. When we got back with them to Louis place we found Shugh W. Green and Gary Parrot putting eave trough on the house and this afternoon they came over here and sat on the veranda. They were here

all the afternoon as it was showery and they couldn't work part of the time. I am over a week late writing this and since putting it down I have concluded that all this happened on Wednesday April 6th and so I will put Tues days doings under the head of Wed.

Wednesday April 6th ☞

I don't remember what happened this fore noon but this afternoon Mary and I took advantage of Ina being here to take care of the kids and we went to town. I took the wagon and got some feed at Bill Hainings. We called in at the farm on our way home to get some wheat and Dad. invited me to go to Toronto with him, Dick & Auntie Alice on Friday for the purpose of taking in the horse show put on by the Toronto Hunt Club.

Thursday April 7th

Mary and I drove down town this morning as she said I would have to have a Spring coat and a new shirt to go to Toronto with but Dick didn't have any Spring coats and the shirt we got was a size too big, so I am not much better off from a sartorial point of view than before. This afternoon I helped Tom fix and oil. He
