142 DAYS PAST

223 TO COME

**Surgical Suggestions.**

Don't urge the radical operation for frontal sinusitis unless the symptoms are severe or conservative efforts have failed; the operation is disfiguring and the results are not always satisfactory.

A five per cent. solution of phenol in glycerine dropped warm into the ear will relieve the pain in non-suppurating acute otitis media.—*Amer. Journ. of Surg.*

**Weather**

**Temp.**

*John was to the north place all the afternoon went to Ay liver & got some some lumber when he got back here ally was to sick to go to the north place Eugene ploughed all day I picked dandelions in the afternoon for wine The girls wheeled to school*
