129 DAYS PAST

236 TO COME

The Logical Method

of attacking Anemia and consequent general denutrition, is to supply the material in which the blood is deficient. **Pepto-Mangan (Gude)** is the ideal hematic restorative, and it throws no strain upon the functions of digestion, assimilation or excretion, and is, at the same time, pleasant to the taste, readily tolerable and devoid of constipating action.

Weather

Cold

Temp.

I drove the girls to Sunday school & then I went & visited Mrs Harris. We didn't go to church. John went down to Sheds to night. The girls & I went to Lewis's for a little while. When we came home Eugene & Alletta was here. Par had come home. Mariah to Billy & I
