258 DAYS PAST

107 TO COME

Golden Rules of Surgery—No. 2.

Do not apply a dressing that will cause pain or discomfort in an ulcer. The patient removes the dressing and consults another surgeon.

Painful nodules on the bone near the crest of the tibia should warn you of syphilis. If they do not soon yield to antisyphilitic treatment (and as a rule they don't), incise, scrape out, and dress antiseptically.—Bernays.

Weather

Dry hat

Temp.

Rained this morning &
this afternoon a little. Leins
thrashed to day, John & Mr Young
helped. I took the girls & men—
for Harry Maude & Leins
I went down to the dump &
got some tin cans. I was
here all day alone. Called a
few minutes to a Ben Maude &
supper
