131 DAYS BAST

234 TO COME

Sure of Positive Results.

A Wisconsin physician writes: "Whenever I am particular, which is not always the case, I always specify **Pepto-Mangan (Gude)**, because I have had positive results from that. I am not so sure about the others."

Weather

Temp.

Rained off and on all day the girls drove Billy to school. Harvey & I washed Eugene took the milk then went to Almas for the hay ^{fork} track for his team, then went around by Kingsmill with a grist then that way home, and got his chopp. Billy was taken sick on Friday with the disemper but we have kept on using him Billy 5 - Mylia 5 - Polly 8
