

Saturday February 24<sup>th</sup>

I went out this morning and pruned the Northern Spy tree but as the wind kept getting stronger I didn't tackle another tree as it wasn't warm enough and then although sunny I then started to help Dad clean out the pen in the sheep barn where John and her calf were. While we were at it Frank who had gone downtown after some groceries came back with Aunt Alice so we didn't do much else while she was here but she went back soon after dinner. Frank got a new cornered file down town and has been sharpening all the saws and making a pretty good job of it too. Eulah expected Jeitha over this afternoon to practice a song she is going to sing in Church to-morrow but she didn't come. She expects to go to the other side next week. Nice day but cloudy <sup>this afternoon</sup> and much colder to night.

Sunday February 25<sup>th</sup>

Frank and I were too late getting up to get to Sunday school this morning but we went to church. We all intended to go as we thought Jeitha was going to sing but Dad and the baby were too late. Eulah got in about 11.30. Dad, Eulah and the baby stayed down at Auntie's for dinner. Dad also stayed there. Frank and I came home to do chores and had dinner alone. Frank went skating this afternoon.
