298 DAYS PAST

THURSDAY 68 TO COME

March 11, 1907.

Dr. C. M. Young, Johnetta, Pa., says:

"The sample of Pepto-Mangan I received from you was given to a girl 15 years old, suffering from chlorosis, delayed menses, anemia, etc., with the best possible results. I am prescribing Pepto-Mangan (Gude) right along in all conditions due to depraved circulatory derangements, with excellent results."

A fine day I washed & the
bels have been working
all the afternoon. I checked
one line away to day.
John has been ploughing
all day. Grandie &
some better. Mella went
to school. The little Davis
girls road home with her.
kept the corn in last
night but turned them
out again. They might have
kept the in twice. Harrah & Riley
