

out too stormy to work at the tree so I did a few chores for Mary and just sat around. Frank came out about four to borrow the car to go to a dance at Ellis Ryman to night. He drove Mahel home and I went with him as far as Dad's corner and from there walked down to Mrs. Alfred's and got the new horse. Frank said he would lend me the fifty & pay for him. It has snowed all day from the East. This afternoon it developed into a heavy storm and the wind went more to the north and it is cold to night. Mr. Jones died to day.

Saturday March 10th

Tom and I worked at the ash tree this morning and got the part of it that was over the creek cut out and in shape that we can get at it now. Frank brought the car out this afternoon and said he had found Bobbie & the sties on the road and shut them in Davis gully. Tom brought them home. We all drove down town about 4 o'clock and went to see I went off to left for Fort Francis to look for a job. I had a bath at Auntie's. The poor old Wampus felt very tough and we were afraid she had a touch of ear ache. We moved her back in her stall. Beautiful winter day.

Sunday March 11th

We all went over to Charlie Bollen's for dinner and stayed there most of the afternoon. Charlie entertained us with his new Henry Ford electric dance records & his own fishing which was rare. We went over to Rufus for awhile when we left there. I didn't go after Mahel to night as Mrs. Campbell called up to say she was sick and wouldn't be at school to-morrow. Bilious attack. The Wampus seemed to be quite herself again. Beautiful day mild night.

Monday March 12th

I went down to Auntie with the butter this forenoon and took the kids with me. I stopped in at Uncle Werd's on my way back and paid him Roy Miness membership for the Fort Cultural Society. When I got home I washed the car. This afternoon Mary and I went down to Mrs. James' funeral. We left the kids at Mrs. Lampkins. Auntie came back with us for tea. We were anxious for her to see the daffodils they are beautiful now. I drove Auntie back to night and went to band practice. Ernie shifted us around tonight giving me Harry's Bb and putting it on my Eb. Beautiful day, slappy. Saw a blue bird.
