**PEPTO-MANGAN IN ANEMIA.**

The great therapeutic value of **Pepto-Mangan (Gude)** is well shown by its rapid and pronounced action in cases of anemia complicated by nervous derangements. With the rise in hemoglobin and the blood count, which immediately follows the administration of **Pepto-Mangan (Gude)**, the backaches and headaches cease, the sensory disturbances disappear, and the patient's nervous system rapidly returns to the normal.—*Buffalo Medical Journal*, July, 1907.

Rained nearly all day  
Maudie & I have been  
transplanting celery  
all the fore noon. This  
afternoon Mella & I have  
been combing hair out  
for the Mathews girls  
it is a terrible day.  
We cleaned up the bush  
in the orchard
