## A Means of Facilitating Version.

A method of effecting version by pressure on the thighs in transverse presentations is described by the author. A powerful influence on the transverse fetus can be exerted by having the woman assume a crouching position, with the body bent forward. Under these conditions pressure is caused in the precise directions necessary for an attempt at version by external manipulation.—A. F. A. King; Presse medicale.

Weather

Cold but fine Temp.

I took Aunty Arnold some apples this morning. Then this afternoon Mrs. Cline & I went down to the cemetery, & got Nella a new light blue dress, & this afternoon, her + Ned one came back all pleased. The girls did the work there to night. They went over to Eveline's then Eveline came back with them. John ploughed all day & Joe did odd jobs. Mariah 17
