127 DAYS PAST

239 TO COME

Normal Exchange and Interchange.

The waste and repair of blood and tissue depend upon normal oxygenation of the circulating fluid. When there exists an essential "iron lack" in the blood, normal exchange and interchange are deficient in both character and extent. **Pepto-Mangan (Gude)** supplies the necessary hemoglobin-producing material, in promptly assimilable form, in Anemic, Chlorotic and Marasmic conditions.

Weather

Temp.

Sprinkled rain

I took Aunt Emma
out to the Arnold girls.
she stayed all night
Girls & I went to Aylmer
& got the mail. We
had Mr Loves & horses
& put in the potato as
in the garden
