

Saturday December 11th

We cleaned up all the wheat left over in the barn this morning which was about 13½ bags. Dad. hauled it down before dinner and I think it brought the total up to a little over 199 bushels, he didn't settle with Ivey this morning as they were so busy. This after noon I went down town to get some groceries. Art Granbery paid me 2 dollars for the three ewe lambs. Frank went back to the gully and found a hole with three shanks in it but didn't get me - it got him properly - phew! He has gone down town to - night. They are going to present Cecil Powell with a watch but I am reading "The Amateur Gentleman" so I sit yonder. It has been cold again today but it has also been sunny.

Frank and I were the only ones that went to church from here this morning. I drove down and brought Aunty and Elva back with me. Jim Waddle & the two little girls also were here to dinner. ~~Dad~~ wanted to have them as we had roast duck. Dick and I didn't get down town very early this afternoon as we ^{each} smoked a cigar first, and May had gone for an automobile ride to Wilesport. I stayed down to tea at Aunty's and Mrs. Smythe and Dad. were there I went to church and May and I went up to Glad. Law's for a while afterwards. Monday evening

The ground was covered with snow this morning so we thought it was time we were getting the sheep home from Dunbar. Dad. went down to the mill and settled up with Ivey paid him \$16.00 and got \$30.00 back. This after noon we harrowed B & M's cattle wagon and went up and got our sheep. We took old Harry & got back about six to eight hours and I went down to A. Y. P. A. Calder and pretty cloudy.
