327 DAYS PAST

FRIDAY

39 TO COME

July 19, 1907.

Dr. S. A. Laughlin, Aberdeen, Ohio, says:

"I can say that I am now, and have always been, pleased with **Pepto-Mangan (Gude)**. It is not a new product to me for I have prescribed it in my practice for several years, during which time it gave splendid results."

Snowed some last night  
& cold to day. John helped  
me & we packed the bees away  
the last four trips. Maudie has  
gone home with the Leavelles  
guys & they are going to St  
Thomas to an art home, w/  
the collegiate institute. John  
didn't plow to day. Maudie  
woud to school when her  
Father took the milk. The  
thrashers have come to Frank  
to night. Bill 5-
