

Eggs 5-8

**Sunday, April 16**

107 DAYS PAST

259 TO COME

**A Competent Circulating Fluid,**

i.e., blood with a sufficient number of erythrocytes of structural and functional integrity is required in order to overcome anemic condition. **Pepto-Mangan (Gude)** stimulates the formation of normal red cells, increases the hemoglobin percentage and acts as a general reconstituent.

Weather

Temp.

Quite cold this morning. Clarence was over & I gave him some fruit for a present. Maudie & I went to church. It rained & rained part of the way home. Have had a terrible electric storm. There is a big fire in the west.

The roads are a fright! - have only seen one rig pass today & that was Dale Herber's. A Dalley 5-
