

17
Saturday October 28th

It froze the hardest yet last night! ice 1/4 inch thick, but was a beautiful day. We had planned to do all kinds of things today but Mr. Shumway came over this morning and gave Dad a bid to his thrashing this afternoon. We spent most of the morning in getting in the rest of the corn, and finished. We have about 900 bushels. Frank helped us. Dick was down town after some stuff.

This afternoon. Dad of course put in at the Shumways and Dick went down and got the mail and then helped Frank get his hay mato. Chas went down town this afternoon.

I went over right after dinner to Bill Dones to see what about the buckwheat. As Sam Law said he could thrash it on Monday but Bill was in breakfast and will not be back until Monday anyway.

I did not do any thing else much but the Chores. Dad got home about six.

He and Dick have gone down to night to meet Roy and they have not got back yet as the train is just in (9 o'clock).

Sunday October 29th

Did not get up till late this morning and did not go down to Sunday school, but Dick and Spike went down. They were going to have church in the town hall again but George Steel did not light the furnace and the door was locked into the cellar so they got frozen out and had to go down to the Sunday school where it was just as hot as the other was cold. I stayed at Huber's for dinner with Dick and Frank and Aunt and Roy went over home. We fooled around with the football for awhile after dinner and then Warren they came down and Dick, Frank and I went for a walk with him down the lake shore. When we got back Frank and I went over to Mrs. Gayler's where we found Mr. & Mrs. Willie Gayler. When we were coming home we met Daddy and Aunt who had been at the cemetery and Aunt was just coming back to Huber's. I went home with Daddy and helped him do the chores and walked down to church again after tea with Roy. After tea I went down to Huber's where most of the ^{church} T. Shep's family were assembled. He has been up preaching today. He, Warren & Jim were arranging for a hunt tomorrow.
