

Friday May 30<sup>th</sup>

Dad. has been diskimg all day on the Lake field. We got all over it lengthways this afternoon and started diskimg cross ways. I finished mulching the little trees this morning and set out some tomato plants that Auntie Alice gave Enah. I also dug around some of the little poplar trees along the side road. While I was at that Pickford saw me and held me over to look at his saw and traps. I was over there till nearly noon. This afternoon Frank and I went out to Shans after our barley seed. They had it all cleaned so we weren't out there very long. When we got back we took the little team back to the field and I harrowed till five o'clock. It was very hot for them. I went down town to night. Auntie got home from London to night. Fine & very hot.

Saturday May 31<sup>st</sup>

We have worked on the land all day but as we had old Pommers in all day we had to give it to him easy. Dad. put him and old Harry on the disks this morning and I went around with him for a hour or two with the rope through the bit, but as he soon

cooled down we didn't leather with the rope but Dad. walked behind the disks all day. He got pretty well tired but is big enough to stand it. I had Queen & Belle on the harrows for a little while before dinner and this afternoon. Queen rammed into it all day and as it was very hot they were wringing wet to night. After tea to night I took the buggy down to the mill and washed it and then had a shower bath under the flame. Got home soon after tea. Frank went down town to night and says Quint is not home yet.

Sunday ~~May~~ June 1<sup>st</sup>

Frank, Sid. and I went down to Sunday school this morning and Enah drove down to church. This afternoon Mary and I went for a drive down the Lake Shore with Queen. Dad. went down to Auntie's and Enah went down to see the Hobbes and then stayed to tea at her mother's. Frank went off on his wheel after dinner and didn't get home till about midnight. I think he was down at Dove Ward's. I helped Dad. do chores and then went down town for the evening. It was very hot to day and the Lake shore road was lined with cars and picnickers.
