

had come yet but she had it. I was there for an hour or two. I went down to meet the five o'clock car and went up to Mabel's for tea and part of the evening. I went down and met the nine o'clock car, on which Mary arrived and I spent the rest of the evening up at Mr. Mear's. It has been cloudy with a cool wind and looks stormy.

Monday April 8th.

Frank and Dad. went to the back field this morning and Frank has been disking back there all day and says it works fine. Dad. went over to see John Wess for a while but he had gone down to meet Cam. I went up to Sam Thompson's and got a setting of Rock eggs and got him to telephone Nell. to come down here Wednesday night and he said he would tell the rest of the boys to meet and arrange for growing our potatoes. When I got home I went over to Jack's to get a setting from him but they didn't have a setting from the pen I wanted them from so I had to leave my basket. This afternoon Dad. and I cleaned up out. Dad. went down to night and went to hear Mr. Crossley with Auntie on the wickedness of card playing and dancing

but he didn't care for him so much. It has been cold this afternoon with north wind but was nice this morning.

Tuesday April 9th.

It froze hard last night so Frank didn't go to the back field but plowed all morning in the plum orchard. Dad. and I went to the back field and opened up a ditch along by the woods which was plowed in last fall. This afternoon Dad. & Frank went back with two teams to work on the back field. Frank took Belle & Queen and Larraced. I went back with him and helped him get hooked up and then came up and helped Dad. put Barry and Dove together and he went back and disked. Erak went down to a meeting of Mr. Crossley's addressed solely to the ladies but she didn't like it much. I stayed here with Jim and spent most of the afternoon grinding up oil-cake in the cider mill. So. night I went down to see Mary for a while. It has been cold with a strong north east wind.

Wednesday April 10th.

Frank and I went down town this morning.
