

Tuesday January 13th

It has been very stormy most of the day and we didn't do anything outside but chores. I spent most of the forenoon getting my incubator ready to start and it has been heating up all day. I worked at my shoe card work for quite awhile this afternoon. I went down to night to a meeting in the Rectory to organize a canvassing committee for the Forward Movement. But as Mr. Freeman was the only other one there we couldn't do much. Mary had been there to see so I went home with her. It has not been very cold but very blustering.

Wednesday January 14th

Dad. and I had to shovel out the lane this morning as yesterday's storm drifted it full. It was after eleven when we got finished and then I started out with Joe & Queen on the toboggan sleigh to get Aunty Alice as we expected her over to dinner. But I met her just outside the lane. This afternoon Dad. drove Quah & Aunty Alice over to Mrs. M. Laughlin's to play bridge and I did up the chores. I had a card from mid at noon saying the boat was going to play at Simcoe to night. So I went down to Aunty's for tea. The Cars were running an hour late so that it was after eight when we got to Simcoe. The Dover team played the Veterans and they both put up a very good game. Dover winning score 4-3. We didn't leave Simcoe till 12 o'clock and the car was crowded as a great many had come up at five o'clock. Blustering day.

Thursday January 15th

It has been cold and stormy all day so we just did chores this morning. Dad. has been reading "Cæstus' Christmas" and "Wee McGreggor Enlist" and finished them to day they are certainly very good. This afternoon Dad. drove Quah & I down to the Pickford's and Ryesses to distribute some Forward Movement letters there. I went down to a meeting in the Sunday School to night. Mr. Manning was there and a few boys but they didn't do much. I then went over to see Mary for awhile and stayed all night at Aunty's in order to help Aunty Alice get started for Toronto in the morning as she is going down for a few days.

Friday January 16th

Aunty Alice got off on the 7.20 G.T.R. this morning and I went to the station with her and then came home. We did up the chores and then Dad. and I went down and cut down a tree at Prestons. This afternoon I took some oats to the mill and left them for Chap and took Emma and Sid down to go to "Mickey" at his picture show. I then came home and did up a few chores and went down to Aunty's for tea and Mary and I went to see "Mickey" to night. After which we went into Mrs. M. Queen's for a cup of tea. It was very stormy all afternoon and evening but the picture show was packed for all three shows. People have certainly gone crazy over "Mickey". What there is in it. I don't know.
