

Saturday May 20th

Dad. and Enah papered nearly all morning and I think are just about through. Frank and I went out about ten o'clock to work at the time and have been there all day. Dad. helping us this afternoon I threw the sods from the side into the middle on the east side right back and they followed cleaning out the lower earth and cutting the east edge of the ditch on a hebel so the cattle wouldnt trap and break it. We are only working north of the water hole as they couldnt plow ^{through} that with the team. After we did chow. to night and before tea we ran the buggy down the lawn to the ditch and washed it. After tea Frank and I went down town and I got my hair cut sunny & nice cut by

Sunday May 21st

Frank and I went to church this morning. After church we picked Jimt up and then County Alice and they both come over to dinner, on the bridge we overtook Dess and Dick also on their way to the farm. Enah was rather surprised at the dinner party although she expected County Alice. Dick thought I would be staying down to

dinner when he asked Dess, however we got on all right. This afternoon I went for a drive with Majorie. We went out to England's first as Glad Lues had gone out there with Bertha for dinner but they had gone off for a drive so we went on by ourselves. Dick, Dess, Frank & Jimt all went back to the woods and Dad. took Jenn out with just the surringle on her. he said she went fine. Beautiful day.

Monday May 22nd

It began to rain before seven this morning and has kept it up steadily all day. About eleven it seemed to let up a little so Dad. and I took Daisy May up to Sam Thompson's, we were up there quite awhile as we had to have a look at all the stock some of which looks fine and so by leaving about twelve we got into an old soaker of a shower so got properly soured. We spent the afternoon in the house. Dad. helped Enah put down carpets and Frank cleaned up over the woods. I sorted out all the Farmers Advocates. There were about seven years of them and we got them all sorted and tied in bundles and packed in a teaboy. Frank has seventeen ducks and has to feed them every two hours. He expects a lot more soon
