145 DAYS PAST

220 TO COME

Parasitic Anemia

caused by the hook-worm, the malarial plasmode, the tape worm or other intestinal parasite, is promptly amenable to the corpuscle-building power of

Pepto-Mangan ("Gude")

Weather

Temp.

Warm. The girls had a holiday John was away this morning don't know where. This afternoon Mrs Mills came & took John Maude & Mella & I over to the growth place to see about the painting. Mrs Dunc Aleta Curcunt & Leason were there we brought Aleta as far as her home with us. Aleta came to night & took Eugene to Asiner. Harry left this morning. I washed today Billy & the Achar. Cro came in Billy 2
