279 DAYS PAST SATURDAY 87 TO COME

June 16, 1906.

Dr. Brecht, Chief-of-Staff Surgeon, Stettin, Germany,
says:

"The bottles of Pepto-Mangan (Gude) which you kindly sent me, were utilized in the case of a soldier in the garrison hospital who was suffering with obstinate digestive disorders with secondary anemia. The preparation has been well tolerated by the patient, his bodily weight has increased, and he has improved to such an extent that he is able to remain in military service."

Froze last night, & very cold
all day. Carl helped all day
we gathered ^{Adams} the apples had
about three bushels. gathered
our beans & dug some potatoes
kids have gone to alymer to
night. Mariah & Audrah
was down a little while this
afternoon & John has been
cutting corn all day. Carl blins
had his tub to day
