

Alice come over to night with a fine mess of peas from her own garden and Frank and I walked down with her. Vernon joined us at Mr. Woodson's so Frank and I just went as far as the fence and then went for a swim. Looked more rainy to day but very hot.

Friday July 21<sup>st</sup>

We hauled in six loads to day. The first two we hauled out of wind row and the rest was the poorest hay we could find in the field and we put them in the barn. Then the first load after dinner we changed the car over to the horse stable and put them loads in there. Changing the car took us a little while and probably kept us from getting in another load but we hope to nearly if not quite finish it to morrow.

Dad and Frank went down town to night. Dad got a notice of a Mr. Smith committee meeting and went down but didn't get to it. got his hair cut in school. They heard that Mrs. Geo. Smith was killed on the T. N. & B. Wash and Hamilton.

Saturday July 22<sup>nd</sup>

We beat all records to day hauled in 8 loads

unloaded 7 in the horse stable and left one on the wagon in the barn. Roy and Vernon came over in the evening just as Hattie, baby and I were about to start for town, so we did not go, but Lobe and Frank went for a swim. Hot and dry.

Sunday July 23<sup>rd</sup>

Frank was not feeling well all day today as he took medicine that he got from Dr. Cook last night. Hattie, Lobe, Lim boy and I all went to church. Dick and Quentin came back with Lobe for dinner here, the rest of us went to the James. In the afternoon Lobe got Charlie's Martin buggy and took Clark up to Victoria and they had a great time. Billy Boushner brought me home about 3 o'clock and took Elva, Hattie and Mrs. James and baby for a ride in his car, he brought Hattie and old Jim home about 5 and Hattie made some sandwiches and we had a little tea out on the lawn. Very hot all day.
