105 DAYS PAST

261 TO COME

Dec. 5, 1906.

Dr. Elmer G. Myers, Canton, Ohio, says:

"Your Pepto-Mangan continues to be my standby. The past summer I prescribed it for several of my young school girl patients, with most excellent results. Have also prescribed it for a number of my surgical (gynecological) cases, and was delighted with their improvement."

Snowed about two inches  
last night & is snowing  
now. Mrs George Davis is  
very sick, the Dr has now  
gone up there. Melba is imp  
roving but not up yet.  
It is warmer to night & very  
light & nice. We saw in  
Saturday paper that Mahlon  
Byrns, died in California  
Eugene's second yearling sheep  
that he got over here has a little  
land
