

Sunday May 11th

Frank and George went for a walk over Brant Hill this morning and I went to Sunday school but was very late as I cut my chin while shaving and couldn't stop the flow of gore for some time. When I got there Ellen Ryerse was marking the books as Miss Martin didn't show up and I had to step lively to get the books dished out. I went to church and found George & Frank there. We then went to Aunt's for dinner. This afternoon Mary and I went up to Miss Martin's with the money we cleaned up at Sunday school and found her looking very tired and her father sick in bed. We didn't stay long as the Bests came up but we spent the remainder of the afternoon at Miss McQueen's. I came home to tea and to do chores and went down again after tea and spent the evening at the Montiths. George & Frank went up to Kady's and to see Aida this afternoon. Mrs. Hobbes invited them there to tea with Aida but Frank came home to do chores. George went and after tea he and Aida went up to Waterford with Mr. & Mrs. Robertson from Toronto in their car. They went on to Brantford and Aida & George spent a little while with Aida's friends in Waterford & came back on the car. Rained all day drizzle.

Monday May 12th

Karl Coleman came over this morning and got the steers I went down with him and saw him weighed. He just came to 960. Dad was very disappointed as he was expecting him to go at least 1000 but Karl told me to night after he killed him that he had no fat inside at all. Frank & George sheared sheep which I was gone and I helped them the rest of the day. We got eight done and only have two more to do now. Old Bradley & Jason were here to dinner. The first trip of the season and old Bradley sheared one sheep for us after dinner. Frank Ryerse was in just after tea. I went to see Dad about a horse that has the colic. I rode down town with him to head practice. Frank and George went to the picture show. Cloudy & cool this morning but cleared off.

Tuesday May 13th

We sheared the last two sheep this morning and got all the wool packed in the big sack. We hung it under the trap door in the ice house and Frank got in and tramped it. This afternoon Dad and Frank took it down and shipped it. Dad stays down to get his hair cut and walked home and brought Mary over with him. Winnie & Doss had
