135 DAYS PAST

Wednesday.

231 TO COME

Any Form of Iron

exercises its therapeutic activity in exact ratio to its absorbability, assimilability, and freedom from irritant properties. **Pepto-Mangan (Gude)** presents its iron (and manganese) content in the form of organic peptonates, and in condition for almost immediate appropriation by the blood and tissues, without exercising any harsh or untoward action upon the gastro-intestinal mucosa.

Weather

Very fine and very Temp. hot day.

Father sowed a little grain to-day, and Mr. Youngs helped him.

Annie Mr Saggart and I went to town and her mother stayed with mother. Mother's hand a little better.
