FRI. JAN. 7, 1898

Wea.

I got up this morning and made the fire, and then prepared the breakfast, I got the boys ready for School, and then I attended to the house-work, and then went to my sewing to finish Lancia's pants, the days are so short there is not much time for ^{sewing}.

Ther.

SATURDAY 8

Wea.

I got up and made a fire and then attended to the bread, for I have buns and buns to bake this forenoon, and in the afternoon I swept and dusted and scrubbed which kept me quite busy.
