

Well we went to Aymer
Friday, June 28

180 DAYS PAST

Saturday

186 TO COME

Syphilo-Dermo-Urologic Aphorisms.

Enlarged tonsils are not always necessarily due to hyperplasia and necessitating removal of the guillotine or snare. Many enlarged tonsils are hard to the touch, so much so as to be indurated. An examination of the secretion will reveal the spirocheta pallida and lead to the discovery of a chancre of the tonsil that is affected.—*Amer. Journ. of Derm.*

Weather

Temp,

Fine

To 1st show for shingles

I went down to Mr Barrett
eye & picked twelve
quarts of straw berries
& did up six cans
Then I went to King
and got a hundred
of sugar for eleven
dollars. John harrowed
his summer fallow &
cut this to this afternoon
Clarence helped him 14
