Take us up to meet him at home so
we were not ready but they did not come
till after 7 when they only had the buggy then with
Charlotte & Alice & when I thought that to take
one buggy with Bear is when would not ride
with him for he had the colt so I rode with
him & E. & Mrs. Chas. I was very happy. I
was 8.30 when we got there & had to wait so
long for him to get away both boxes so we
missed about half but the remaining part was
grand. we saw such a lot of folks in the
hall sat with E. & I. He had went up on
Sunday & stayed till after midnight. also
Miss Mary. & Mr. & Mrs. In the speech
was spent on music. I just wished E.
& M. L. had been there to hear it. The hall
was jammed could hardly get a seat. After
it was over we intended to bring Laura back
with us. but there was a letter waiting for her
from home saying she was to be home next
day so we had to say "Good bye" in a hurry

in the idan's store, she graded handful
conduits for girls & we parted. we got home
precisely at 12 o'clk. The girl came in white skin
but did our horse and began the walls some
honey, it was awful cold. I got a letter from
Mr. L. that day too. It being the 2nd one. he sent
3 of his cards all different & 1 blank one for J. W. but
she had gone to G. or into to school again so
I could not see her. I had to grat this one when
she got done writing it he said, good, had in my
to come to bed very cold.

Sept 4th - Mrs McCancey stally girl from 3

washed. Titled dinner & we hurried & got dishes
washed so as to go to school train to meet Laura
going home with it. We took a lounge, some of
honey & she glances she left. But she did not go
that day for when we had got home a while
Minnie & her drove down it raining they

with a young man to Calumet & she was going
to London in morning. It seemed too hard for
prayer meeting but Mr. Lugsdon was down.

Sept. 5 - Evening. Ma went to Bunde. I fixed
my old dress. Mrs. McKay & Ella came in
at 10 o'clock. Footing stockings. Ada Johnson
Edna & Laura came up to see for tea. Miss
English here for tea. Ella & M. C. came on
evening. I practising after tea. Mr. Johnson
here a long time talking till nearly 10.

Sept 6th - Washing farmels. Girls pick-
ing plums. I went to help them. Net broke
down on 2 limbs & went to the ground
did not get hurt. We had corn for dinner
& I was eating away when all at once
some got in my tooth & made it jump
with toothache, it was terrible I went
to bed to cure it, but it did not stop that
day. Annie wanted me to go to Ing. for
all night that night but my tooth was
too bad.

Sept 7th - Net washed long gate. Annie
came home at noon and said she saw
Edith D. & Jennie & Viola Cumm. they wanted
A & I to go over at night if it did not rain.
So I got ready & went about 4 but it was
raining a little then & we stood on the stairs
commonly thinking if we would go or not
& then it stopped raining so we went right
on. E. J. came to meet us. We had our tea &
were sitting in front room in dark telling
made up stories, all in a hush by the light
& we heard the gate hook so we looked out
& we could see the form of a man but not
that of Will. S. as we had expected but
Bob J. he could not see anybody in front
room so started to go around the kitchen door
when Viola gave a little laugh out as he
came bounding in & tried to distinguish
us but could not very well he thought
Jennie was I & he could not get me for

jerked like everything to get away
from him for I could not bear him
as at last freed myself without any
signs of a mark on my face. We played
question & answer cards. Bob asked the
questions & we all answered in turn. It
was splendid fun. We also played "Ship's
arrived" and paid forfeits. Viola redeemed
the forfeits as E. J. held them over her head.
She would tell the owner of the forfeit
what they were to do. Jennie & Bob had
to walk the "cedar or camp" together &
to pick cherries together and she kissed
her lots of times & she did not care. We
had "Jacob ladder" too & shooting
the common off in which we all went
on the floor. We had popped corn &
liverwurst to throw, and we all sang then
and some comic pieces. And it poured

and rained & very dark so they said
we would stay all night so we did
rather than let B. J. come home with us
for we knew he would if we attempted to
come. So he went home after a while.

When we were playing I & A and B. J.
asked Jennie the question "What was she
going to do after she got married" & she
said "Put my children to bed" & right
after it she said "Counting chickens before
they are hatched" & we all had such a
roister laugh & shame as never was.
After he had gone we got ready for bed
took all our boots off & threw them
all in the very middle of the floor & they
were there all night. When we got our
night dresses on we had a promenade
the rooms from one to the bedroom at
last I got in with Edith in the back bed
room & 3 in the front one. E & I talked a

to know us, very cool he was just spoke all.
Then we went down to Monart's wharf took

was just lovely on boat very calm not a
bit crowded. I forgot to say I counted
thru all the time too in town, I got
100" when I got to fair ground. Edith I
would not count all of the saw for fear
of getting 100 that day. We went through
North hall first. Then E & I pointed from rest
I went to Palace in there a long time, saw
invalids bed, lovely over fancy things.
We got to penny work at last a long time
at that, lots of things made of cord. We
A & L. S. O. there. & Edith I & Ann Carpenter
at penny work too. kept with them awhile

till we saw the big balloon go up then
we got parted. When we were in court gallery
we saw A. J. C. cabinet there, lovely
oil paintings & water colors. We came down
to see balloon. one came up in it very
near out of sight we did not see it come down.

Then E & I got at horse ring fence. a awful
crowd there, could not see without standing on
tip toes & peering through shoulders, so we stood
that way until our toes very soon cracked they
were aching standing that way. after awhile some
moved then we got a little better place for seeing
but ^{a great deal more} ~~not much better~~ for smelling, for right
in front of me there was a great big man. who
at his pop gun go off & it being filled with
air of a very different perfume than that of my
handkerchief, my nose did not agree with it at all.
& it was some time before I could get it to de-
part from me. I did not have a little away from
me so did not have the displeasure of such a
buff. But for all we saw lots of handkerchiefs
