232 DAYS PAST

133 TO COME

Pediculosis Capitis.

Lay patient on back on bed with head over edge, hair lying in a basin beneath head on a chair. Pour 1:40 phenol solution over hair into basin and sluice backward and forward until hair thoroughly soaked, especially over ears and at nape of neck. Continue sluicing ten minutes, then lift hair from basin and allow to drain, without drying it. Then swathe head with thick towel or large piece of flannel and allow to remain for an hour. Finally wash hair or simply allow to dry. Method entirely safe with children of 5 years and over. Hair not damaged.—Whitfield.

Weather

A lovely day

Temp.

I went to Kingsmill this morning to get salts for the Lord Cleghish cows. Auntie & Mulla went to Aylmer after dinner. Mulla got a tooth pulled. Maquette was up a little while this afternoon. Lizzie came to night for Auntie Tepl. Mr McBrinn & Mill Waterbury & Ma Hill cows was here from St Thomas.
Polley & Mariah 10.
