

Here fortunate in getting ditches mostly cleared in big field, also ballance of peas sown in lilly field. It has been raining heavily since noon and we have all had a good rest.

Got about twenty acres of our seeding done. Thank God! for he alone can prosper our labours and make them effective. I desire exceedingly to do all things as unto Him. "For none of us liveth to himself" He is willing to accept us and our little offering and O, how glad I am that He accepts me.

On account of yesterday's rain we have had to suspend seeding operations entirely. The rain will be a great benefit however in taking out the frost and settling the ground besides starting seed already sown. Have had the boys at work at sundry jobs to day. This afternoon Mrs. went up into town and after his going thought that with him our three horses would have an occasional rest. They have had it pretty long so far.

The weather has been very windy, and cold to day.
