225 DAYS PAST **MONDAY**

141 TO COME

**IN GENERAL DEBILITY**

following acute diseases, where the functions of the organism are in a state of depression, and in all cases where there is a diminution of the red blood cells and amount of hemoglobin, **Pepto-Mangan (Gude)** produces speedy relief, because it overcomes the derangement in metabolic balance, restores the erythrocytes to their normal power and stimulates the hematopoietic organs. The tissues take up the oxygen yielded by the hemoglobin, and the patient gains strength and weight.

a fine day though rained a little not much, the rest of the day was rather nice. Maude & I went to Aylmer, stopped in to Mrs Ed Thompson on our way home, about five minutes. The girls have been extracting honey all the fore noon!
