302 DAYS PAST

MONDAY

64 TO COME

April 4, 1907.

Dr. Arthur C. F. Brown, St. Louis, Mo., says:

"I often have occasion to prescribe **Pepto-Mangan (Gude)** in my practice and have found it to work well.

One case was an old man eighty-six years of age with Pneumonia. Put him on **Pepto-Mangan** from start of disease, recovery and a gain in weight of seven pounds... more than he ever weighed. I attribute this to your marvelous remedy."

Raining again like thunder
all day. I am tired of it. mud
knee deep. the roads a fright
Melba went to school, nothing
doing, only chores. John
took the milk. I finished
Aunt Emma's under coat.
John Allen was hurt badly
Sunday night while going
to St Thomas
