MON. JAN. 17, 1898

Wea.

We rose this morning, and after breakfast I got the boys off to school, I did the housework, and then mended the boys shirts and lengthened the sleeves of them, I was kept quite busy all day we are having a mild winter so far, with very little snow.

Ther.

TUESDAY 18

Wea.

I bounced out of bed in a hurry thinking I had slept too long, and found it was 7 o'clock, the boys are off to school, I swept up stairs and cleaned out the stove, I lifted off the pipes and then polished the stove in forenoon, and did some patch work in afternoon.
