

that Mr. Johnson wants them to run at the strawberry social. I was late getting down so missed them but met a couple of them later on the street. I went down to Aunt's where I found Mary so walked home with her. Frank got home today noon from his trip. Had a fine time.

Friday June 18th

Frank and I went down in the wagon this morning and I got the old Northern Crown Bank sign which I want wanted me to paint over for them to put down at the beach. Frank had some other things to get and we came home by the mill and got some feed so it was nearly noon when we got home. It drizzled rain for quite awhile after dinner and was too wet to do any thing out side. I did some lathering. Frank cleaned up in the shop and Dad's time was taken up with Julian Reimoff's horse which had got something in its foot and was quite lame. She went after him at four o'clock. It cleared off to night and Mary and I went up the Radical Road tacking up posters for the Strawberry festival. I felt ashamed of my self all the time for helping to advertise the damned thing but there is no use bucking it when the majority seem to think it is the proper thing. We went up to Port Repulse and put up about fifteen posters on gates and posts and two on a water tank. We came home around by the Smyth's and returned some wraps they lent us last week.

Saturday June 19th

It looked cleared off to day and has been sunny and breezy. Dad & Frank started to plow the field east of the new meadow this morning for corn and Dad. has been at it all day but says it is pretty wet yet. I spent most of the morning cleaning out the hullo pen and doing odd chores and got started to cut the lawn. I finished it this afternoon. Frank did odd jobs and mulched the little trees in the orchard. He and Sid. went fishing for a while while after dinner and Sid was in the seventh heaven over cutting two carp. He brought them home and cleaned them all by himself and we all had to have a taste at tea time. Leah went down town.

Sunday June 20th

We all went down to Church or Sunday school this morning. Mary, I and I had dinner at Aunt's. I went up town this afternoon and the band played out in the park. We had a good concert and a full band. I came home soon after four and helped Dad. do chores. It began to rain about five and kept it up all evening. I went down town after tea and found Mary in at the Woods. we went up to the Monteith's and spent the evening. Frank went down to the Ward's on his wheel and I guess is stalled down there. I stayed all night at Aunt's. Very windy & rather cold & a drizzly rain.
