

We were  
blessed by a  
beautiful fall  
of rain this  
forenoon which  
was very much  
needed.

Busied myself  
during the fore-  
noon in making  
repairs of  
different kinds.

Went down to  
John Mann chopping  
this afternoon to  
get some thresh-  
ing wood cut  
up ready for draw.  
Not being able to  
carry over any fence  
this spring has  
shut us off from  
this usual source  
of supply.

Have been  
getting up wood  
from John Mear's  
chopping to day  
for the kitchen wood  
Jim has been  
helping me, also  
George Crawford.  
We have succeeded  
in getting up  
six loads be-  
hind the barn.

The late rain  
was cleared away  
and another  
cool spell has  
followed, al-  
most cool en-  
ough for frost.

There is a con-  
siderable injury  
to wheat ripened  
by the late frosts.  
The different localities
