

Daddy spent in the morning or trying to back Frank his spells
as it has been a new rain wind, it has been quite warm
all day. but tonight the wind is veering. Daddy milked Fred
today and says that he is getting the grass. I didn't know
he would be the first to get the grass. The calf which he is making
a fine
for
the
year
and
the
day

Wednesday October 4th

It rained hard last night and this morning
is blowing to heat. I can't think of
anything just now. Daddy and I went out
and had a look at the wheat and Dad
thought he would run some ditches
then we went back and he dug a basket
full of potatoes and we hucked a couple
of shocks of corn. We got a lot overature
We wanted it for the pigs. Then we chanced
up till noon. We hworked all the after
noon back of the old house tying up the
rubbish as Dad can place it. Mr.
Vase was over this afternoon trying to
persuade Dad to let the clover off the corn
field for seed. Dad went over with him but
says he was not hotter with it as it is not
worth while. He said the Woodson had
a great time getting off this morning. Frank
and Dick came home with a cauliflower and
some celery from Mr. Smith. After tea

Mr. Gerrard has been
to me to back and she is taking him around. Frank is a
puzzler
He has been married and had five children. He left her
we also saw that Mrs. Ferris had relapsed.

Thursday October 5th

Dad. and I loaded up the wagon
with the rubbish around this
morning and took it down to the
marsh. We went around by town
and got some meat and a film. We
brought Stubby over with us as he
wanted to go with Dad to Old Mr.
Mc Bride's funeral this afternoon. We
left right after dinner and Dad got back
about four having left Stubby down town.
Then he took Euch over to the Mc
to see about getting a barrel of apples.
I saw a wood and broke and made
another leg on my saw-horse.
This afternoon. Frank and Dick did
not get home till late to night as Frank
had to go to the dentist. Dick went down
to Confirmation class to night and Frank
is having more fun with his spelling.
Daddy has a very lame hip and back today.
