Tuesday 19 132 TO COME

Surgical Suggestions.

When seeking the cause of an obscure or indefinite abdominal pain, and especially of a pain in the loin, make a careful microscopic examination of the centrifugalized urine. Renal calculi sometimes cause only mild, irregular pains, and the finding of a few red blood cells in the urine may be the first clue to their presence.—*Amer. Journ. of Surg.*

Weather

Temp.

Washed a little

This morning Lewis was down a little while Maudie & Nella went to Ayler's. Eugene was here for dinner. Mr. Clute was here & they finished cutting the oats, down by the woods hoed corn in the forenoon. Yesterday to day we have been making things for little John Maudie &
