Saturday July 29th

I raked up the lawn this morning and Daddy and Bill worked at the foundation of the drive house. I took the old lid as a bush that Mr. Smith cut down and cut it up for firewood. I shovelled a little of ront got some stone for them and spoiled ground till dinner. Harry Batersby and Clayton Ausby came over for a while this morning. Bill went home this afternoon but expects to be back on Monday. This afternoon Dick went down town and stayed all the afternoon. Daddy and I went over the gully with the mower and I mowed the weeds that Lamkins left. It was the first time I ever mowed any thing and it was not so badly done. After that I went down to the stump for a swim and only had two dives. The water was about 20 above zero. Daddy brought up the rake which was across the gully too. Dick went down town

We all came home but Dick right after dinner and I spoiled around and wrote a letter to "The Patch" and one to Roy and read a little. Daddy tinkered around at odd jobs and I guess Enah slept or watched Daddy. Co. night we milked and Daddy fixed better legs in my milk stand and Enah found a hen's nest of ten eggs in the orchard. I picked some plaster off
